

Neural Engineering Research Group

BME 6470

Fall 2021

All presentations take place in SMBB 2650 (large auditorium)

Every second Thursday, 12:25-1:45

Date	Presenter
9/2	Rick Rabbitt Lab: Electrical, magnetic, infrared, and ultrasonic stimulation of the inner ear: Implications for targeted multi-physics neural stimulation in the CNS
9/16	Student Presentation 1 (Brekka Weng, Tara Zamani)
9/30	Ilknur Telkes (Albany Med): Electrophysiological Markers of Spinal Cord Stimulation-induced Pain Relief in Chronic Pain Patients
10/14	Fall Break
10/28	Student Presentation 2 (Sarah Haslam, Matt Wilson)
11/11	KC Brennan Lab: Unpacking a disorder of sensory gain
11/25	Thanksgiving Break
12/9	Elisa Konofagou Lab (Columbia)
