BME Undergraduates Hold 3rd Annual Leadership Retreat

On Saturday, September 14th, for the third year, the BME Undergraduate Student Advisory Committee held a leadership retreat in the Warnock Engineering Building. This unique event provided opportunities for bioengineering undergraduates to reflect on leadership issues such as the importance of diversity, strategic vision, core values, initiative, teamwork, problem solving, and lifelong learning.

Once Again, Thank you Johns Hopkins University: Dr. Tara Deans Joins The Dept. Of Bioengineering

Tara Deans, PhD, joins the department this fall. Dr. Deans was a postdoctoral fellow in the department of biomedical engineering at Johns Hopkins University, where she focused on interfacing synthetic biology with biomaterials for spatially and temporally controlling gene expression *in vitro* and *in vivo*.

9th Annual Utah Biomedical Engineering Conference

This year marked the 9th annual Utah Biomedical Engineering Conference where faculty, undergraduate and graduate students came together to present their research - and enrich the collaborative spirit of biomedical engineering within the department and across the Health Sciences Campus. About 250 attended the event and there were over 100 student presentations.
